

TIREMAAX® TIRE CHECK

www.hendrickson-intl.com

866-RIDEAIR (743-3247)

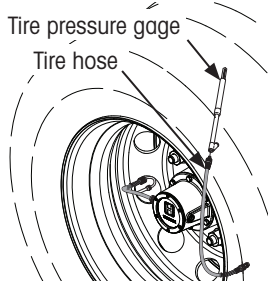

TO MANUALLY CHECK TIRE PRESSURE

1. **Disconnect** tire hose at hubcap.
2. Use a conventional gage to **measure** tire pressure at hose end as shown on right.
3. **Align** hose with hubcap port and **tighten** nut. Ensure nut is snug.

Refer to Hendrickson publication T51002 *TIREMAAX Installation, Service and Troubleshooting Procedures* for complete system details.

Tire pressure gage

Tire hose

TO DISABLE SYSTEM

1. **Set** trailer park brake.
2. **Locate** TIREMAAX control, as shown on far right.
3. **Turn** supply valve to closed position, as shown on right.
