

TECHNICAL BULLETIN

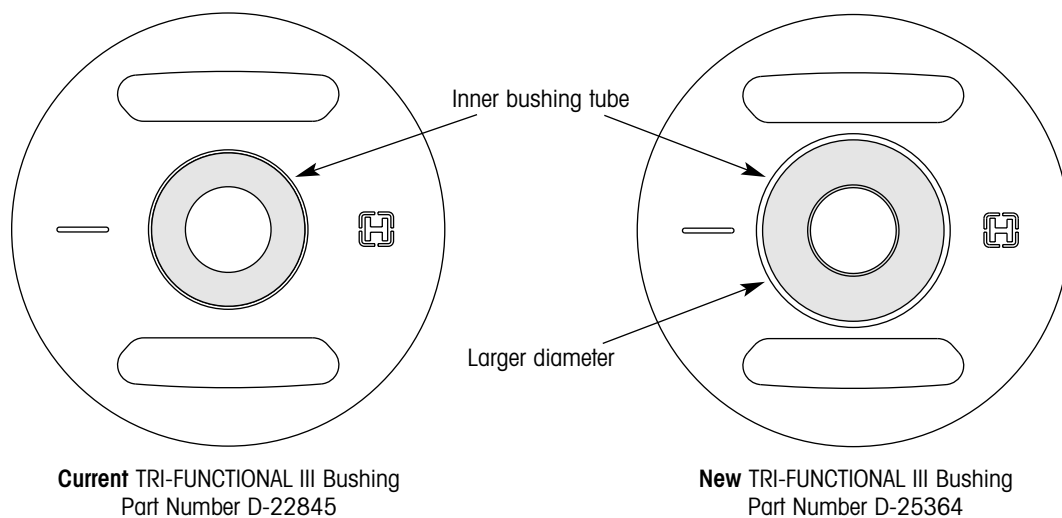

TRI-FUNCTIONAL® III BUSHINGS

SUBJECT: Installation Instructions Supplement

LIT NO: L774

DATE: March 2002

This pivot bushing kit contains the new TRI-FUNCTIONAL® III Bushing. It can be distinguished from the current bushing by the larger-diameter inner bushing tube.

We also increased the stiffness of the new TRI-FUNCTIONAL III Bushing, making it more durable than the current bushing. Because of the increased stiffness and durability, the new and current bushings will wear unevenly if used on the same axle. Therefore, **the new TRI-FUNCTIONAL III Bushing and the current bushing must not be mixed on the same axle. The new TRI-FUNCTIONAL III Bushings in this kit must be installed in both suspension pivot connections.**

Additional copies of this bulletin can be obtained from the Hendrickson web site at www.hendrickson-intl.com.
