

- Trusted name
- Superior axle design
- Application versatility

Trusted Name

Worldwide, OEMs, fleets and owner operators put their trust in INTRAAX®. INTRAAX continues to prove its reliability and performance, piling up thousands of miles on tens of thousands of trailers worldwide every year. With a reputation for low maintenance and durability, INTRAAX costs less to operate over the long haul and helps keep rigs on the road longer.

Superior Axle Design

Hendrickson enhances the INTRAAX AAT product line by incorporating the 5¾-inch LDA™ Large-Diameter Axle. The road proven LDA axle reduces weight, improves performance, increases axle stiffness and improves durability. AAT 25K / 30K models use a large-diameter axle with a slightly thicker wall to provide a more durable and lighter suspension compared to other similar suspension models.

Application Versatility

The versatile AAT 23K / 25K / 30K models are ideal for platforms, tankers, dumps, grain hoppers and specialty trailers – on-highway or off road. With ride heights ranging from 13.5 to 19 inches and suspension capacities of 23,000 through 30,000 pounds, the AAT suspension has the capability to meet your trailer needs.

INTRAAX® AAT Features and Benefits

QUIK-ALIGN® Pivot Connection

- Fast and easy axle alignment
- Requires no welding or special tools

Industry's First Standard Trailer Cam Tube System™

- Enhances S-cam alignment and helps extend life of brake components
- Short 10-inch S-cam reduces windup and bushing wear for responsive, consistent stopping power

Neutral-toe Axle

- Helps increase fuel economy and tire life
- Straight tracking

LDA™ Large-Diameter Axle

- Trims weight compared to five-inch axle, allowing more cargo per load
- Bending and torsional stiffness increased for rugged durability
- Greater roll stability
- Reduced deflection under load

TRI-FUNCTIONAL® Bushing

- Rigid trailing arm and solid axle connection for optimum ride softness and stability

Advanced Axle Wrap and Window Weld

- Provides optimal structural integrity

Brake Component Mounting

- Welded to trailing arms rather than axle; minimizes axle stress

Value-Added Options

- RTR® READY-TO-ROLL® wheel-end options reduce weight, enhance durability and lower maintenance
 - **HXL3® Hendrickson Extended-Life 3-year System™** features a three-year limited on-highway warranty*
 - **HXL5® Hendrickson Extended-Life 5-year System™** features a five-year limited on-highway warranty*
 - **HXL7® Hendrickson Extended-Life 7-year System™** features a seven-year limited on-highway warranty*
 - TIREMAAX® tire inflation system helps maximize tire life and maintain peak fuel mileage
 - HXS® Hendrickson Extended Service™ brakes extend intervals between brake service
 - UBL™ UNDER BEAM LIFT™ is a lightweight mechanism which offers cost savings and operational flexibility
 - Air disc brakes available
- See *Raised-Center Axle Flyer - L1065*
 See *TIREMAAX PRO Brochure - L1199*
 See *UBL UNDER BEAM LIFT Flyer - L727*

*Contact your local Hendrickson representative for complete warranty terms, conditions and limitations. Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.

Specifications

MODEL	MAXIMUM CAPACITY (lbs.)	AXLE RATING ¹ (lbs.)	AXLE DIAMETER	RIDE HEIGHTS (Inches)	APPLICATION WEIGHT (lbs.)
AAT 23K	23,000	23,000	LDA™	13.5, 14, 15, 16, 17, 18, 19	528
AAT 25K	25,000	25,000	LDA	13.5, 14, 15, 16, 17, 18, 19	551
AAT 30K	30,000	25,000	LDA	13.5, 14, 15, 16, 17, 18, 19	555

¹Axle structure rating only. Brakes rated separately.

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.
