

H INTRAAX®

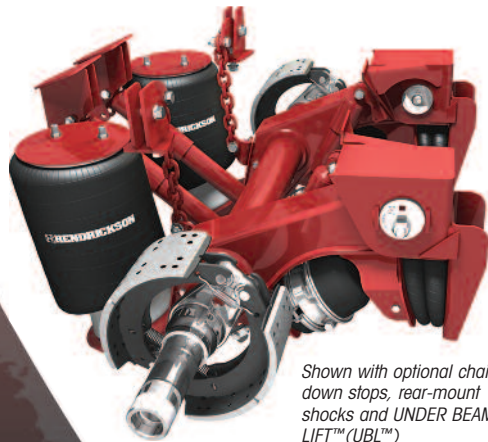

AAEDT 30K / AAEDL 30K

Top-mount and low-ride/liftable extreme-duty trailer air suspension systems add muscle for severe applications

Take advantage of all the proven benefits of integrated suspension-axle-brake system technology for your severe-duty applications — specify an INTRAAX® extreme-duty model. The world leader in trailer air suspensions, Hendrickson delivers the first integrated 30,000-pound structural capacity system for severe-duty and heavy-hauling applications.

Shown with optional chain down stops and rear-mount shocks

Shown with optional chain down stops, rear-mount shocks and UNDER BEAM LIFT™ (UBL™)

INTRAAX extreme-duty systems meet your demands for tough off-road and other severe operating environments where maximum strength and durability are required. Ride heights range from 14 to 17 inches for the top-mount (AAEDT 30K) and from 9 to 19 inches for the low-ride height/liftable (AAEDL 30K).

Applications include:

Loggers, chip vans, dumps, tankers, straight-and drop-deck platforms and specialty trailers

An INTRAAX for rigorous applications

Available in both top-mount and low-ride height/liftable models, INTRAAX extreme-duty systems maximize performance by combining the benefits of the world's premier integrated suspension system with rugged features and options:

- Geometry design enhances stability
- Low-pressure air springs with steel pistons for rapid air-up and superb ride quality
- Axle and suspension rated at a full 30,000 pounds
- Optional rear-mount shock absorbers
- Optional chain down-stops

H HENDRICKSON
The World Rides On Us®

INTRAAX® Advantages

Cutting-edge design and advanced manufacturing techniques provide a system that reduces weight while improving strength, durability and performance.

- Neutral-toe axle for increased fuel economy, improved tire life and straight tracking
- Patented axle-wrap technology and beam-mounted brake hardware for outstanding durability and braking performance
- TRI-FUNCTIONAL® bushings, in unison with rigid trailing arms and solid axle connection, deliver the ideal combination of ride softness, stability and control
- QUIK-ALIGN® pivot connection for fast and easy axle alignment
- Unparalleled Hendrickson support team
- Industry-leading limited warranty*
- Cap-style bushing tube spacer comes standard on all EDT and EDL suspensions

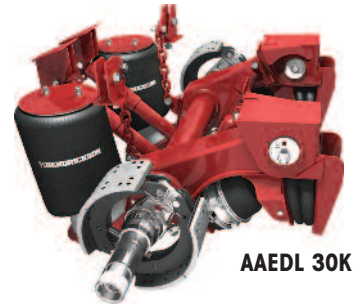

Cap-style bushing tube spacer

*Contact your local Hendrickson representative for complete warranty terms, conditions and limitations

AAEDT 30K

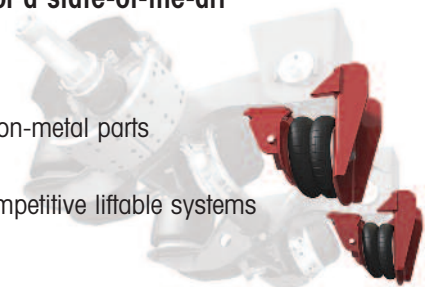

AAEDL 30K

Liftable

Combine your AAEDT / AAEDL system with an UNDER BEAM LIFT™ (UBL™) for a state-of-the-art liftable system that offers cost savings and operational flexibility.

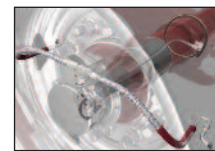

UBL benefits include:

- Minimal maintenance required
- Easy installation
- Compact, robust design with few moving parts
- No chains, cables or metal-on-metal parts to wear or bind
- Weighs half as much as competitive liftable systems

Options

- READY-TO-ROLL® (RTR®)* wheel-end options reduce weight, enhance durability and lower maintenance
- TIREMAAX® tire inflation system assists in your efforts to maximize tire life and maintain peak fuel mileage
- Hendrickson Extended Service™ (HXS®) brakes and wide HXS brakes extend intervals between brake service

TIREMAAX® tire inflation system

*See READY-TO-ROLL® (RTR®) Wheel-End flyer - L1064 for the right wheel-end solution to meet your needs

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.

Call your trailer dealer or Hendrickson at **1-866-RIDEAIR (743-3247)** for additional information.
