

PIVOTING MUD FLAP BRACKETS

- Helps prevent mud flap and bracket damage
- Reduces maintenance
- Exclusively on ULTRAA-K[®]

Helps prevent mud flap and bracket damage

Hendrickson's patented pivoting mud flap brackets are spring-loaded to allow mud flaps to rotate downward. This reduces the potential for bent mud flap mounting angles and the chances of the mud flap being pulled off or damaged.

Reduces maintenance

Traditional brackets can be damaged or broken from the force of the mud flap being pinched between the tire and a tall curb or other object. Hendrickson's patented pivoting mud flap brackets allow the entire mud flap to pivot down. This helps prevent damage, which reduces maintenance and downtime.

Exclusively on ULTRAA-K[®]

Pivoting mud flap brackets are standard on ULTRAA-K, which also includes other low maintenance features like ZMD[®] ZERO MAINTENANCE DAMPING[®] TECHNOLOGY and pre-installed, protected height control valve to maximize maintenance savings.

PIVOTING MUD FLAP BRACKETS - How They Work

Pivoting mud flap brackets are more effective at preventing component damage than traditional brackets. If the mud flap is pinched between the tire and an obstacle behind the trailer, the entire bracket can rotate in the same direction as the flap is being pulled.

Tension is evenly distributed along the top of the mud flap as the brackets rotate downward, protecting the outermost edges of the mud flap from being torn. Since the brackets are spring-loaded, once the mud flaps are no longer pinched and pulled, the brackets return everything back into place undamaged and ready for continued operation.

Additional Features

Welded on Bracket Nuts

- Simple and efficient installation

Angle Compatibility

- Additional mounting holes allow the bracket to be shifted inboard, aligning the outer edge with wide-base single tires

Warranty

Pivoting Mud Flap Bracket Assembly Warranty

MODEL	PARTS	LABOR
UTKNT 40K	3 years	1 year
Industry Standard	1 year	1 year

**Refer to Hendrickson Lit No. L583 for complete warranty terms, conditions and limitations.*
