INTRODUCTION

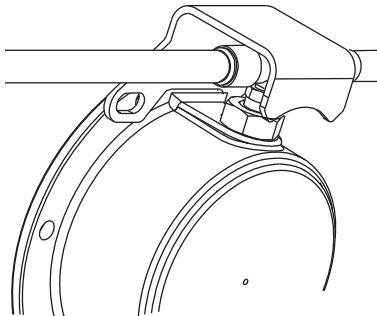

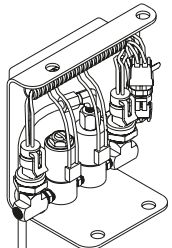

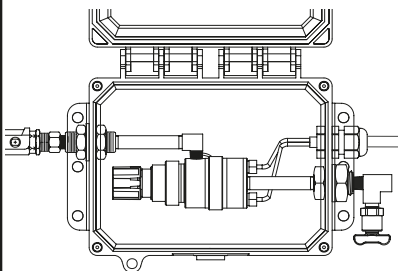

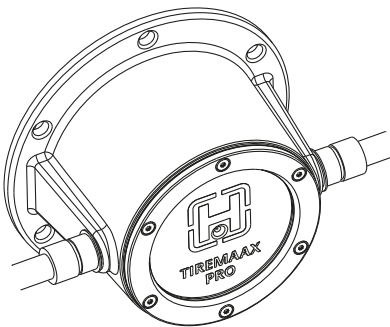

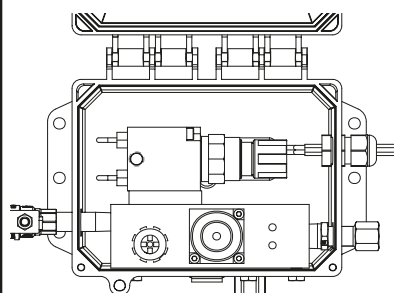

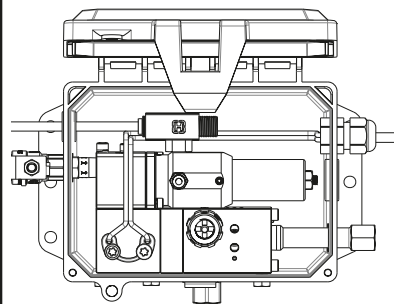

The purpose of this parts list is to document the repair parts available for Hendrickson TIREMAAX™ EP and CP tyre pressure control and TIREMAAX PRO and TIREMAAX PRO-LB Load Based tyre pressure control systems for Australia, New Zealand and Asia Pacific regions only.

For wheel end components, please also refer to [97114-100 Wheel End Systems Parts List](#).

NOTE: All quantities listed within this parts list are as applicable for a single axle.

SYSTEM IDENTIFICATION

Four TIREMAAX™ systems have been available in Australia. Only the PRO and PRO-LB are still in production.

System	Description	Hubcap Style	Controller
TIREMAAX EP Electronic Pressure (Legacy)	Electronic controlled tyre pressure. These were discontinued in 2012 and few, if any, are still in use. They use the same hubcap as the CP, but with a different controller that contains solenoids.		
TIREMAAX CP Constant Pressure (Legacy)	Supplies constant pressure to tyres. Also discontinued in 2012. There are still some units in use. However, not all parts are still available. The controller has only two air line connections.		
TIREMAAX PRO	Advanced automatic tyre pressure control system that actively inflates or relieves tyre pressure to a pre-set level. The PRO uses three air line connections.		
TIREMAAX PRO-LB Load Based	Tyre pressure is altered depending on axle load. Hubcaps are a similar design to the PRO but can be identified by PRO-LB decal. The controllers have different internal components and a fourth air line connection for air spring pressure.		

CONTROLLER BOX

Item	Part Number	Description	Qty	Notes
1	PRO6085-1A	Controller Assembly – TIREMAAX PRO, 85 PSI	1	85 PSI

3	S-28191-100	Controller – TIREMAAX EC, 100 PSI	1	Up to 2012.
4	CP-6090-1	Controller Assembly – TIREMAAX CP, 90 PSI	1	Up to 2012.
5	98732-068	Enclosure Box with Lid – PRO	1	Includes blank lid pressure decal.
	98732-069	Enclosure Box with Lid – PRO-LB	1	Includes blank lid pressure decal.

INDICATOR LAMP, WIRING & DAMPING TANK

Item	Part Number	Description	Qty	Notes
1	98606-352	LED Indicator Lamp – 12/24 Multi-Volt	1	[1] Assembly includes short wiring harness.
2	B-40695	Damping Tank – TIREMAAX PRO-LB	1	Includes air fittings.
3	98831-008	EBS Connector & Harness – WABCO 4-Pin.	1	[2] Includes wiring harness.
4	98831-009	EBS Connector Plug – Knorr-Bremse 6-Pin.	1	[2] Includes 2 contact pins & 4 blanking pins.

[1] NOTE: Multi-volt LED indicator lamps, item 1, are suitable for retrofit to earlier systems. However, they require changed mounting holes (refer dimension shown) and a dedicated earth connection to vehicle ground to ensure reliable lamp operation.

[2] NOTE: Functionality of EBS connectors, items 3 and 4, require configuration of the relevant EBS module parameters. Refer to technical bulletin [97117-294](#) for assistance with trailer wiring.

STEEL BRAIDED HOSES NOTE

Previous steel braided hoses are no longer available. All hose lengths have been reviewed and been amended to best suit each application. Therefore, the old hoses do not have a direct replacement. The Hose Selection table must be used to determine which hose would best suit your application.

[1] NOTE: Alcoa ULT36 aluminium wheels require removal of any Alcoa valve extensions and stabilising grommets. These must be replaced with Hendrickson hoses and grommets. Refer to image for installation locations.

The straight hose (blue label) must be attached to the inner tyre valve without an extension. The 110 degree hose (yellow label) must be attached directly onto the outer tyre valve, also without an extension.

The stabilising grommets (shown in red) are used to support the hoses passing through the wheel openings of ULT36 aluminium wheels. They must be installed in the locations shown the diagram. It is recommended that grommets are also installed in the inner wheels for use when the wheels are rotated as part of normal servicing. This requires 8 grommets per axle for all aluminium or 4 per axle for a steel/aluminium combo.

ULT36 Hose & Grommet Locations

[2] NOTE: For aluminium zero-offset wheels with an outward facing stem, the tyre hose listed for steel (with an outward facing stem) can be used.

AXLE HOSES & HARDWARE – TIREMAAX PRO & PRO-LB

Item	Part Number	Description	Qty	Notes
1	VS-33092-1	Plug, Kit – HN Spindle. Plug & Filter Kit.	2	Includes filter, item 2. Included in item 10.
	B-31289	Plug, End – HP Spindle	2	Included in item 10.
2	S-24217	Filter, Axle – HN & HP Spindle	2	Included in item 10.
3	NSS	Hose, Axle – TIREMAAX, LH	1	Use Item 10.
	NSS	Hose, Axle – TIREMAAX, RH	1	Use Item 10.
4	SA-4300-8	Fitting, 90 Degree – 1/4 Inch OD Tube x 1/8" NPTF	2	Standard. Included in item 10.
	98418-011	Fitting, 90 Degree – M&F 1/8" NPTF	2	Suits trailer steerable disc brake.
5	S-23738	Grommet, Hose	2	Included in item 10.
6	SA-6400-2	Hose, Nylon – 1/4 Inch OD x 9150 mm Long	1	Included in item 10.
7	A-32101	Vent Assembly – INTRAAX, CONNEX ST, Disc Steer	1	Included in item 10.
