

Quality Inspector

Wellingborough, UK

Day to day quality inspection tasks assigned by the Quality HSE Manager. Ensure products and processes comply with engineering drawings, specifications, customer requirements, and internal quality standards. Actively support quality improvements activities.

The Quality Inspector role is designed as the foundation for career progression within the Quality Department. Through training, experience, and demonstrated competency, the next development step is progression to the Quality Technician role.

To work proactively within a culture of problem solving and continuous improvement, to drive Hendrickson forward.
