COMPOSILITE® EX TRUCK Features and Benefits

EXS Truck Steerable 13.5K

Inset Lower Beams

- Optimized lateral stiffness
- Eliminates the need for V-rod

Weld-Free Hanger Design

- No welding on front side of rail hangers minimizes stress risers
- Flat hanger design allows for flexibility of bolt-hole patterns

Zero-Torsion Rubber Bushings

- Provides increased durability and bushing life
- Improves overall cost of ownership with less downtime

Bolt-On Axle Seats

- Easier serviceability for ride height changes or altering tire sizes
- Change seats, not axle
- Improves overall cost of ownership with less costly repairs

Traditional Tie Rod with Coil Shocks

- CTR Compliant Tie Rod option is recommended for tag applications

Patented STEERTEK™ Axle Technology

- Proven design on front steer applications
- Weld-free axle connection
- Increased structural durability and warranty coverage

EXF Truck Non-Steerable 13.5K

- Same inset beams, zero-torsion rubber bushings and durability improvements as the COMPOSILITE® EX steerable model

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors. All applications must comply with applicable Hendrickson specifications and must be approved by the respective vehicle manufacturer with the vehicle in its original, as-built configuration. Contact Hendrickson for additional details regarding specifications, applications, capacities, operation, service and maintenance instructions.

Call Hendrickson at **800.660.2829** or **800.668.5360** in Canada for additional information.
