

AIR SPRINGS

Genuine Parts

- Engineering expertise
- Outstanding performance
- Genuine Hendrickson Parts

Hendrickson Air Springs are integral parts of our truck and tractor air suspension systems, providing premium driver comfort and optimal performance. Regular suspension inspections are necessary to help ensure ride quality and handling. To help ensure high end-user satisfaction and optimal system performance, Hendrickson supplies the same genuine components for service as those installed in the original suspensions — with the same design, construction, performance and durability.

Air Springs for Hendrickson Front Air Suspension Systems

Air Springs for Hendrickson Rear Air Suspension Systems

Engineered

Hendrickson air springs are designed and tuned specifically for each of our suspension system models and approved applications. Hendrickson air springs undergo advanced design and testing processes to provide optimal suspension ride, handling and performance.

Performance

Ride quality and performance are key factors when designing the internal makeup of Hendrickson air springs. A low natural frequency is achieved through proprietary piston, flex member, and bump stop components.

Use Only Genuine Hendrickson

Using non-genuine air springs can alter the weight rating and performance of Hendrickson suspensions. Look for the Hendrickson name and logo on the air spring to help guarantee you are getting genuine Hendrickson service parts.

- NOTE:** ① Air spring only (no upper air spring bracket included).
 ② Includes upper air spring bracket and fasteners.
 ③ Includes support plate, upper air spring bracket, and fasteners.
 ④ Volvo vehicles built between 03/05–06/07 equipped with dual height control valves.

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.
 All applications must comply with applicable Hendrickson specifications and must be approved by the respective vehicle manufacturer with the vehicle in its original, as-built configuration.
 Contact Hendrickson for additional details regarding specifications, applications, capacities, operation, service and maintenance instructions.

Call Hendrickson at **630.910.2800** or **855.RIDERED (855.743.3733)** for additional information.
